

Quantum Touch & Aromatherapy for Elders with special Care (Dementia & Pain management Care)

What is Quantum-Touch?

Quantum-Touch is a powerful, yet easy to learn, energy healing modality. Everyone has the innate ability to help themselves and others. The Quantum-Touch techniques teach us how to focus and amplify life-force energy (known as 'chi' in Chinese and 'prana' in Sanskrit) by combining breathing and body awareness exercises.

- * Massage therapists provide deeper relaxation and faster healing.
- * Reiki Masters say Quantum-Touch radically improves the outcome of their sessions.
- * Chiropractors are impressed because bones spontaneously melt into the correct alignment with a light touch.
- * Physical therapists are enthusiastic about how rapidly Quantum-Touch reduces inflammation.

All participants receive individual training and leave the workshop not only understanding how to do Quantum-Touch, but with the confidence to know that they can successfully use Quantum-Touch to help themselves and others accelerate their healing. Together with the knowledge of Aromatherapy for Elder with Dementia or pain management issue, participant could use both holistic concerns to help sooth the symptoms of Dementia and pain relief.
